

Name: _____

Just like you live in a community with neighbors, some **cats** live in a community too.

When cats and **kittens** live outdoors together, they are called **community** or **feral** cats.

Since community cats have never shared a home with humans, they can be afraid of them.

Like pet cats, community cats need **food**, **water** and a safe place to live.

Kind people, called caretakers, help feral cats. They put out food and water. They also build **shelters** to protect them from hot and cold weather.

Can you find the **highlighted words** in the puzzle?

MEET MISS KITTY WATSON!
